

CLARIN-LT

CLARIN AND TRANSLATION STUDIES

CLARIN

Workshop website

- <https://www.oeaw.ac.at/acdh/events/event-series/event-detail/article/clarin-workshop-call-for-participation/>

CLARIN ERIC: WHY?

- Digital language **resources** from all over Europe and beyond accessible through a single sign-on online environment.
- Advanced **tools** to discover, explore, exploit, annotate, analyse or combine such data sets.
- Participation in conferences, workshops and research networks.
- Knowledge centres
- Long term storage of your data (PID – persistent identifier)

CLARIN SERVICES

<https://www.clarin.eu/content/services>

The screenshot shows the CLARIN Services website interface. At the top, there is a navigation menu with links for Home, About, Participants, Services (highlighted), Knowledge Base, Events, News, and Contact. A search bar is located on the right side of the header. The main content area is titled "Services" and features a grid of nine service tiles, each with an icon, a title, and a brief description:

- CLARIN portal**: Get an example-based impression of what's currently available. (Icon: Portal screenshot)
- Depositing services**: Store language resources in a sustainable repository at a CLARIN centre. (Icon: Document and storage icon)
- Virtual Language Observatory**: Discover language resources using a faceted browser or a map. (Icon: Map and data visualization)
- Easy access to protected resources**: Get easy access to protected resources, with your institutional username and password. (Icon: Identity and service provider diagram)
- Web services and applications**: Explore and analyze language data with a wide variety of tools. (Icon: Web Service icon)
- Virtual Collections**: Create your own digital bookmarks, ideal for citing data sets. (Icon: Virtual Collections diagram)
- Language Resource Inventory**: Submit and access information about language resources relevant to your research. (Icon: Inventory table screenshot)
- Content Search (prototype)**: Search different corpora with a single search engine. (Icon: Magnifying glass)
- Consulting Services**: Searching for a specific data set or application? Wondering how CLARIN can assist your research? Feel free to contact us! (Icon: Question mark)

The Windows taskbar at the bottom shows the Start button, task view, and several application icons (Edge, Chrome, File Explorer, Word, PowerPoint, Excel, OneDrive, Teams, Skype). The system tray on the right shows the date and time: 10:33, 2018-02-14.

CLARIN FOR RESEARCHERS

<https://www.clarin.eu/content/clarin-for-researchers>

The screenshot shows a web browser window with the URL <https://www.clarin.eu/content/clarin-for-researchers>. The page features a navigation bar with social media icons and a main content area with the heading "INITIATIVES".

Key families of resources and tools

We are currently working very hard on organizing and presenting CLARIN's key families of resources and tools that are particularly relevant for a wide range of disciplines in Digital Humanities and Social Sciences. We have prepared overviews of the parliamentary corpora, newspaper corpora, social media corpora and parallel corpora that are available in the CLARIN infrastructure and can be used for monolingual, comparative and transnational studies in corpus linguistics, translation studies, media studies, political science, social sciences, history, etc. We will soon be adding tutorials on how to query, annotate and analyse the data.

Guest blog posts by researchers

Read guest blog posts written by researchers who attend CLARIN User Involvement events and share their insights. They are a great way of following up on the topics of the events and resources used.

One of the most recent guest blog posts was written by Elena Volodina on the 'CLARIN workshop on Interoperability of Second Language Resources and Tools', a CLARIN-PLUS workshop held in December 2017 at the University of Gothenburg, Sweden.

Tour de CLARIN

Get to know the CLARIN consortia in our network one by one, find out about their signature training initiatives, discover the resources, tools and research projects they are most proud of and meet the researchers who have benefitted from their infrastructure. Join us on a virtual road tour that takes us to a different CLARIN member country every two months.

CLARIN Mobility Grants

Would you like to learn how to use a resource or tool developed at a CLARIN centre? Or would you like to learn how to integrate a resource or tool you've developed into the CLARIN infrastructure? Or would you perhaps like to develop training materials based on the CLARIN infrastructure for your students or fellow researchers? Read about how you can apply for a CLARIN Mobility Grant.

Read about how you can submit a proposal for CLARIN mobility grant.

Read a recent blog post written by Jan Niestadt who received the CLARIN Mobility Grant in November 2017.

Videolectures

Since 2016, we have been building an on-line library of talks and tutorials from our training and academic events on the Videolectures.NET portal, which is an award-winning free and open access educational videolectures repository. You can

Call for User Involvement event proposals

We are committed to enabling training opportunities for researchers at all stages and from a wide range of disciplines and are welcoming proposals to fund Master Classes, Tutorials, Seminars and Summer Schools as well as on-line training materials that are focusing on teaching how to use

1 What has happened in recent years has brought to our attention the tremendous problems facing not only the producers of food but also the consumers

2 We must strike a balance between them .

3 We must resolve this issue , because it is important that consumers should regain confidence in the food they eat .
